MESSAGE: Dredging at Offloading Berth

Don:

Preliminary research indicates Fisheries to be cooperative. However, the City of Seattle will stick with the standard, longer permit process unless we can show them an alternate path.

The longer permit process will not allow dredging prior to the Fisheries closure of June 15, 1999. It would be our objective to convince the city of the need to issue permits sooner, but that your planning should not assume dredging prior to June 15. The exact date cannot be predicted based on information available at this time.

Prior to proceeding, we will require authorization in the form of a purchase order. It is my intent to research at the agencies on a time-and-expense basis, to be followed up with a statement of probable fee. Because of the unpredictability of permit work, I cannot predict a hard and fast probable fee for our services. Our company rate sheet is attached.

We look forward to working together with you on this project.

Very truly yours,

Jay W. Spearman, P.E.

Rate Sheet

Spearman Engineering, P.S., lists the following as their hourly rate schedule for engineering projects. Most invoicing is done on a monthly basis. Payments are due upon presentation of invoice and are considered past due thirty (30) days from invoice date. A finance charge of 1½% per month may be charged on past due accounts. Reimbursable expenses are charged at 10% markup.

Rates for Services Rendered:

Principal	\$90/hour
Engineering Staff	\$70/hour
Permit Assistant.	\$45/hour
Drafting Staff	\$45/hour
Clerical Staff	\$35/hour

Subconsultants, unless engaged directly by client, will be charged at 10% mark-up for their services.
